

## Evaluation Form – CS 68 Bioinformatics F14

Presenters:

Evaluator:

---

**Content** Each presentation should have an effective introduction to motivate the problem, methods to address the problem, experiments to evaluate the methods, and a concluding discussion of lessons/future directions. Comment on which aspects of the content were or were not done well.

Strengths of Content:

Weaknesses of Content:

**Organization** Please evaluate the layout of the talk, such as:

- Did the presentation flow in a logical manner (clear transitions between topics, top-down progression from motivation to approach and results)?
- Did slides contain an appropriate amount of information? Were there an adequate amount of figures and graphs?

Strengths of Organization:

Weaknesses of Organization:

**Communication** Provide feedback on the presenter's delivery of the content, such as:

- Did the presenters speak to the audience? Were they engaging?
- Was the presentation delivered at an adequate pace and in a clear, controlled voice?

Strengths of Communication:

Weaknesses of Communication:
